Section 13 – Disposal Considerations

13.1 Waste treatment methods: The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. All disposal must comply with Local, State and Federal regulations. Contact a licensed waste-disposal contractor for detailed recommendations. Many states classify waste lubricants as 'hazardous', which means disposal can only be a licensed firm.

Product / Packaging disposal: Empty containers should be taken to an approved waste handling site for recycling or disposal.
