

Safety Data Sheet

According to HAZARD COMMUNICATION STANDARD (HCS-2012) (29 CFR 1910.1200(G))

Version: 1.0/EN
Product name: Tyre Sealant

Revision date: 01/06/2012
Printing date: 01/06/2012

(c) Description of any hazards not otherwise classified.

No information available.

(d) Ingredient with unknown acute toxicity

50-70% percent of the mixture consists of ingredient of unknown acute (oral/dermal/inhalation) toxicity.

SECTION 3: Composition/information on ingredients

(a) Ingredients information:

Chemical name	CAS No.	Classification	Concentration
Latex emulsion	9006-04-6	Not classified	50-70%
Ethane-1,2-diol	107-21-1	Acute toxicity-oral category 4	30-50%
Ammonia, aqueous solution	1336-21-6	Skin corrosion category 1B	0-1%

The rest unspecified ingredients are impurities, and they are not hazardous.

SECTION 4: First-aid measure

(a) Description of first aid measures

- Inhalation: An improbable hazard under normal handling conditions. Move to fresh air in case of accidental inhalation of vapours or decomposition products. If you feel unwell, seek medical advice (show the label where possible). In case of irregular breathing or respiratory arrest: Oxygen or artificial respiration, if needed. Call a physician immediately.
- Skin contact: Wash off with soap and plenty of water. If skin irritation persists, call a physician.
- Eye contact: Rinse with plenty of water immediately, also under the eyelids, for at least 15 minutes. If eye irritation persists, consult a specialist.
- Ingestion: Immediately give plenty of water (if possible charcoal slurry). Rinse mouth. Do not induce vomiting. Call a physician immediately.

(b) Most important symptoms/effects, acute and delayed

- Inhalation: Cough. Dullness.
- Skin contact: Dry skin. Redness. Roughness.
- Eyes contact: Redness. Pain.
- Ingestion: Abdominal pain. Nausea. Vomiting. Weakness.

(c) Recommendations for immediate medical care and special treatment needed, when necessary.

Persons with pre-existing skin, eye, or respiratory disease may be at increased risk from the irritant or allergic properties of this material. Attending physician should treat exposed patients symptomatically.

SECTION 5: Fire-fighting measures

(a) Extinguishing media

- Suitable extinguishing media: Water, foam, dry powder or carbon dioxide.
- Unsuitable extinguishing media: No information available.

(b) Special hazards arising from the chemical

In addition to the gaseous combustion products which occur from the reaction of organic materials with oxygen,
