

1. Identification of the substance/mixture and of the company/undertaking

Product identifier	NABL-160
Use of the substance/mix	Non asbestos friction material
Supplier of the safety information:	TMD Friction
Further information obtainable from:	msds@tmdfriction.com
Emergency telephone number:	+49-228-19 240 (Informationszentrale gegen Vergiftungen)

2. Hazards Identification

The friction material product identified in this sheet meets the OSHA definition of an "article" and is not considered hazardous under normal handling and use. Certain activities such as machining and/or grinding may release dusts and other particles and cause this article to be treated as a "hazardous material" under the OSHA Hazard Communication Standard.

3. Composition/information on ingredients

Chemical characterization

The friction material contains different inorganic and organic compounds, which are bonded in a system of cured binding agents and fibres.

<i>Dangerous components:</i>		
68602-89-1	Friction Dust  Skin Irrit. 2, H315; Eye Irrit. 2A, H319; Skin Sens. 1, H317; STOT SE 3, H335	2.5-10%

Additional Information:

For the wording of the listed risk phrases refer to section 16.

4. First aid measures

After inhalation	Supply fresh air; consult doctor in case of complaints.
After skin contact	Wash with water and soap as a precaution.
After eye contact	Rinse opened eye for several minutes under running water.
After swallowing:	If symptoms persist, consult doctor.

5. Fire fighting measures

Suitable extinguishing agents	CO ₂ , powder or water spray. Fight larger fires with water Use fire extinguishing methods suitable to surrounding conditions
Advice for fire-fighters	Wear self-contained respiratory protective device.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	No special measures required
Environmental precautions	No special environmental precautions required
Methods and material for containment and cleaning up	Pick up mechanically.
