

Personal Protection

Respiratory	Use properly fitted, air-purifying or air fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Hands	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Eyes	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposures to liquid splashes, mists, or dusts.
Skin	Personal protection equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Environmental Exposure Controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements or environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and Chemical Properties

Physical State	Semi-solid, grease
Flash Point	277°C
Auto-ignition Temperature	Not Available
Flammable Limits	Not Available
Color	Green
Odor	Mild petroleum odor
pH	Not Available
Boiling/condensation Point	Not Available
Melting/freezing Point	Not Available
Density	0.972 g/cm ³
Vapor Pressure	Not Available
Vapor Density	Not Available
Volatility	Not Available
Evaporation Data	Not Available
Viscosity	Not Available
Dispensability Properties	Not Available
Solubility	Insoluble in the following materials: hot and cold water
Physical/chemical Properties Comments	Not Available

10. Stability and reactivity

Chemical Stability	The product is stable
Conditions to avoid	No specific data
Incompatible Materials	No specific data
Hazardous Decomposition Products	Under normal conditions of storage and use, hazardous decomposition product should not be produced.
Possibility of Hazardous Reactions	Under normal conditions of storage and use, hazardous reactions will not occur.

11. Toxicological Data
