

Material Safety Data Sheet

FIR No.: 169664
Version Number: US-US-3

Level: 1
Release Date: 2009-07-29

3. Hazards Identification

Health: Skin and eye irritation may occur with repeated contact to dusts. This product is a mixture of chemicals physically bonded together; therefore, in the as supplied state this product is considered non-hazardous. If in the event that dust is generated, some of the ingredients can have the long-term effects. This product may cause an allergic skin reaction. Breathing dust of this material may lead to chronic health effects.

Environment: Material contains a chemical which is a Hazardous Air Pollutant (HAP), regulated by the United States Clean Air Act.

4. First-Aid Measures

Inhalation: If dust from the friction material is inhaled, move to fresh air. Seek medical attention or advice if irritation persists.

Skin Contact: For skin contact, wash immediately with soap and water. If irritation persists, get medical attention.

Eye Contact: If in eyes, flush with water to remove particulate.

5. Fire-Fighting Measures

This material is not combustible.

Extinguishing Media: Water, foam, ABC-powder, or Halon.

Specific Hazards: When heated to very high temperatures, the material may give off smoke and decomposition products which may contain toxic compounds such as sulfur and/or nitrogen oxides.

Protection of Firefighters: Wear self-contained breathing apparatus.

6. Accidental Release Measures

Personal Precautions: Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of fibers/dust and contact with skin and eyes. Dust should be collected by vacuuming with a HEPA-filter equipped vacuum or by wet mopping.

Environmental Precautions: No available information.

Methods for Cleaning Up: If a release of dust occurs during machining, abrading, or riveting, remove dust by vacuuming or wet mopping. Vacuums used for this purpose should be equipped with HEPA filters. Do not use compressed air to blow dust from the workplace.
