

- Glove protection: Not necessary under normal operation condition. Wear proper protective gloves if the battery is damaged or leaking.
- Respiratory Protection: Not necessary under normal operations condition. SCAB required in the event of a fire.
- Foot Protection: Steel toed shoes recommended for large container handling.
- Clothing: Not necessary under normal operations condition, If batteries are damaged or leaking, wear appropriate protective clothing.

Ventilation to Be Used: Not necessary under normal operations condition

Other Protective Clothing and Equipment: Not necessary under normal operations condition

Hygienic Work Practices: Not necessary under normal operations condition

Section 9: Physical and Chemical Properties

State: Solid

Color: Metallic color

Odor: NA

Density: NA

Water Solubility: Insoluble

pH: NA

Evaporation rate: NA

Flash Point: NA

Upper/Lower Flam Limits: NA

Temperatures at which physical state change occur: There is no useful information for the product as a mixture.

Section 10: Stability and Reactivity

Stability: Stable under normal use

Conditions to Avoid:

- Do not heat or incinerate the battery, Never impact, pierce or crush the battery.
- Do not disassemble or modify the battery,
- Do not charge the battery under high temperature conditions such as near a fire or in the direct sunlight.
- Do not short-circuit the battery by connect the positive and negative terminals with a metal material.
- Do not allow the battery to get wet or be immersed in water.

Incompatibility (Materials to Avoid): Water, salted water, other solvent with water

Section 11: Toxicological Information

This product does not elicit toxicological properties during routine handling and use.

Section 12: Ecological Information
