

SUBJECT:

Material Safety Data Sheet (MSDS)
 ISSUE DATE: August 30, 2012
 REVISION DATE: May 29, 2018

Page 4 of 5

9. Physical and chemical properties

Form: solid
Color: grey-brown-black
Odor: characteristic
Melting point: not determined
Boiling point: not determined
Flash point: not applicable.
Self-inflammability: product is not self igniting.
Danger of explosion: none
Density: 2.00 – 3.50 g/cm³
Solubility in water: insoluble

10. Stability and reactivity

Thermal decomposition: No decomposition if used according to specifications. If decomposition occurs, products would include: hydrocarbons, ammonia, sulfur, carbon oxides (CO and CO₂), nitrogen, and trace amounts of other organic compounds.

Hazardous polymerization: Product is cured in manufacturing process and will not polymerize.

Stability: Stable at standard temperatures and storage conditions.

Incompatibility (Materials/Conditions to Avoid): Avoid contact with strong acids and strong oxidizers.

11. Toxicological information

See section 3 "Hazard Identifications". Ingredient-specific data for this article is not presented. When used and handled according to specifications, the product, according to our experience and to information provided to us, does not have any harmful effect. It is considered a non-hazardous article.

12. Ecological information

Water hazard: Class 0

The product is a stable article without environmental toxic effects.

13. Disposal considerations

In accordance with federal and state laws and regulations, the product should be disposed in sealed containers. Disposal must be in accordance with 49CFR261, 49CFR262, and state and local regulations.

*Must not be disposed with household garbage.
