

---

### **3. FIRST AID MEASURES**

---

**“If any of the symptoms persists, seek medical attention immediately.”**

<b>Skin:</b>	Wash skin with soap and water after handling parts. Seek medical attention for persistent irritation.
<b>Eyes:</b>	Flush eyes with cool running water if dust becomes embedded. Seek medical attention if reddening persists.
<b>Inhalation:</b>	Remove affected person to fresh air.
<b>Ingestion:</b>	Not an anticipated route of entry.
<b>Advice to physician:</b>	No specialized first aid or medical treatment procedures are required.

---

### **4. FIRE FIGHTING MEASURES**

---

#### **Flammable Properties**

<b>Flash point:</b>	Not applicable
<b>Upper flame limit:</b>	Not applicable
<b>Lower flame limit:</b>	Not applicable

**Extinguishing Media:** Water, Fog, Foam or Dry Chemical

**Unusual Fire and Explosion Hazards:** Toxic and irritating materials may be released in a fire. Wear self-contained breathing apparatus in case dusts are formed during a structural fire.

---

### **5. ACCIDENTAL RELEASE MEASURES**

---

Release of the finished form of product into the environment poses no hazard.

---

### **6. HANDLING AND STORAGE**

---

**Handling:** Always wear recommended personal protective equipment. Avoid breathing or creating dust.  
**Storage:** Product must be stored in any suitable area away from strong acids and oxidizers.
