Methods for Containment

Methods for Cleaning Up

water runoff contaminating soil and entering sewers or waterways. Prevent further leakage or spillage if safe to do so. Pick up and transfer to properly labeled containers. In case of rupture: Take up with sand or other noncombustible absorbent material and place into containers for later disposal. Prevent product and washings from entering drains, sewers or surface water due to high toxicity to aquatic organisms.

Other Information

Refer to protective measures listed in Sections 7 and 8.

7. HANDLING AND STORAGE

Handling

Do not open, disassemble, crush or burn. Do not expose to temperatures outside -40°C to 65°C. In case of rupture: Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Do not breathe vapors/dust.

Storage

Keep container tightly closed in a dry and well-ventilated place.
