Section 8 - Exposure Controls (If blank, then there are NONE)

8.1 Control parameters

Substance	TLV mg/m3	TWA mg/m3	TLV-STEL mg/m3
-----------	-----------	-----------	----------------

8.2 Exposure Controls

Appropriate engineering controls: Use local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Eye/face protection: Safety glasses, goggles or faceshield. Eyewash / Emergency shower should be in close proximity.

Skin protection: Oil resistant gloves, safety glasses, goggles when splashing, apron, oil resistant clothes.

Hand protection: Chemical resistant gloves, Nitrile rubber, Polyvinyl alcohol, Neoprene gloves.

Footwear: Safety shoes per local regulations.

Clothing: Wear adequate protective clothes. Long-sleeves, pants, apron. Launder contaminated clothing prior to use.

Respiratory protection: In case of insufficient ventilation wear suitable respiratory equipment. Respirator with a half-face mask (EN 140) Respirator with a full face mask (EN136) Recommended Filter type: (A-EN141)

Thermal hazards: Avoid contamination of cigarettes or other tobacco products.

Environmental exposure controls: Do not flush into surface water or sanitary sewer system.

If user operations generate an oil mist, determine if airborne concentrations are below the OSHA Permissible Limit (PEL) of 5 mg/m3 for mineral oil mist. If not, wear a NIOSH approved respirator that provides adequate protection from the measured concentrations of this material. For air-purifying respirators use a particulate cartridge.

Section 9 - Physical and chemical properties

9.1 Information on basic physical and chemical properties:

Physical State: Grease	Vapor Pressure: Not Available	Boiling Point: N/A
Color: Orange	UEL: N/A	Melting Point: N/A
Odor: Sweet	LEL: N/A	Dropping Point (°F): >376°F
Odor Threshold: Not Available	Evaporation Rate: N/A	Flash Point(°F): N/A
Appearance: Translucent	Vapor Density: N/A	Auto-Ignition Temp.: Not Available
Physical Form: Grease	Solubility: Negligible	Decomposition temperature: Not Available
Specific Gravity: N/A	Coeff. Water/Oil Dist: Not Available	OSHA Flammability Class: IIIB
Viscosity (cSt @ 40°C): N/A	pH: Not Available	

9.2. Other information: None

Section 10 - Stability and Reactivity

10.1 Reactivity: None known

10.2 Chemical Stability: Material is stable under normal conditions. Stable.

10.3 Possibility of hazardous reactions: Not Available

10.4 Conditions to avoid: Heat, flames and sparks and other ignition sources.

10.5 Incompatible materials: Avoid contact with: Strong acids, bases, oxidizers

10.6 Hazardous decomposition products: CO and CO₂ may be present due to incomplete combustion.

Section 11 – Toxicological information

11.1 Information on toxicological effects:

Acute Toxicity: Not Available	Reproductive Toxicity: Not Available
Skin Corrosion / irritation: Not Available	Summary evaluation of CMR properties: Not Available
Serious eye damage / irritation: Not Available	STOT - Single exposure: Not Available
Respiratory or skin sensitisation: Not Available	STOT - repeated exposure: Not Available
Germ cell mutagenicity: Not Available	Aspiration hazard: Not Available
Carcinogenicity: Not Available
