Safety Data Sheet for N617H/B23

Page 4 of 8

SDS No.: NAMI-PCP-12-13-16B

Engineering controls:

Friction materials are molded articles and neither gives off nor reveals hazard materials. But machining (grinding, drilling, etc.) can result in the release of airborne dust, and OSHA permissible exposure Level (PEL) excessive dust is considered hazardous. use local ventilation.

Personal Protective Equipment:

Respiratory protection: Not required under normal conditions and adequate ventilation. If the

exposure limit is exceeded, use of NIOSH approved face mask(N-95 or better) is recommended. In the case of fire or explosion, Self Contained

Breathing Apparatus (SCBA) should be used.

Hand protection Rubber gloves are recommended.

Eye protection: Safety glasses are recommended.

Skin and body protection: Work clothes that can avoid contact with dust is recommended.

General hygiene considerations: Avoid breathing the dust.

Avoid contact with dust and skin, eyes. Wash thoroughly after handling.

SECTION-9 PHYSICAL AND CHEMICAL PROPERTIES			
Appearance	Articles	Evaporation rate :	No data
Odor	Odorless	Vapor pressure :	No data
Color	Brown-dark gray	Vapor density :	No data
pH:	No data	Specific gravity :	1~3
Melting point :	No data	Solubility in water:	No data
Boiling point:	No data	Viscosity:	No data

SECTION-10 STABILITY AND REACTIVITY

Stability: Stable.

Possibility of hazardous reactions: Will not occur.

Conditions to avoid : Keep away from fire, heat, and flame.

Incompatible materials: Avoid contact with strong acids, strong alkalis, strong oxidizers and

reducers.

Hazardous decomposition products: Toxic and irritating materials may be released in a fire.

SECTION-11 TOXICOLOGICAL INFORMATION

This Product is not evaluated as mixture. The following data is ingredient's information.

Calcium hydroxide

Acute Toxicity Inhalation can cause sore throat, cough, and burning sensation.

Skin contact can cause redness, roughness, pain, dry skin, skin burns, and blisters.

Eye contact can cause redness, pain, and severe deep burns.

Ingestion can cause burning sensation, abdominal pain, abdominal cramps, and vomiting.
