

Material Safety Data Sheet

FIR No.: 169305 **Level:** 1

Version Number: US-US-2 Release Date: 2009-07-29

11. Toxicological Information

1314-13-2 ZINC OXIDE

Oral, mouse, LD50 = 7950 mg/kg

Inhalation: This product contains one or more non-asbestos fibers or other man-

made fibers. Although relatively little is known about the long term health effects from exposure to dust from friction materials, studies of respirable fibers, which are physically similar to asbestos, suggest the potential for chronic lung disease, including fibrosis, with overexposure.

Skin Contact: May cause allergic skin reaction.

Chronic (Long Term) Toxicity: Allergic sensitivity from trace amounts of formaldehyde may occur due

to exposure to this materials.

12. Ecological Information

Ecological testing has not been conducted on this product.

13. Disposal Considerations

Waste from Residues: Dispose of the material in an approved industrial waste landfill

according to federal, state, and local regulations.

Contaminated Packaging: No available information.
