**CUMENE (CAS 98-82-8)** Skin designation applies.

US - Tennessee OELs: Skin designation

2-BUTOXYETHANOL (CAS 111-76-2) Can be absorbed through the skin. 4-METHYLPENTAN-2-OL (CAS 108-11-2) Can be absorbed through the skin. **CUMENE (CAS 98-82-8)** Can be absorbed through the skin.

**US ACGIH Threshold Limit Values: Skin designation** 

NAPHTHALENE (CAS 91-20-3) Danger of cutaneous absorption Solvent naphtha (petroleum), heavy arom. Danger of cutaneous absorption

(CAS 64742-94-5)

US NIOSH Pocket Guide to Chemical Hazards: Skin designation

2-BUTOXYETHANOL (CAS 111-76-2) Can be absorbed through the skin. 4-METHYLPENTAN-2-OL (CAS 108-11-2) Can be absorbed through the skin. **CUMENE (CAS 98-82-8)** Can be absorbed through the skin.

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

2-BUTOXYETHANOL (CAS 111-76-2) Can be absorbed through the skin. 4-METHYLPENTAN-2-OL (CAS 108-11-2) Can be absorbed through the skin. Can be absorbed through the skin. **CUMENE (CAS 98-82-8)** 

Appropriate engineering

controls

Provide eyewash station and safety shower. Use adequate ventilation to control airborne concentrations below the exposure limits/guidelines. If user operations generate a vapor, dust and/or mist, use process enclosure, appropriate local exhaust ventilation, or other engineering controls to control airborne levels below the recommended exposure limits/guidelines.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Suitable chemical protective gloves should be worn when the potential exists for skin exposure. **Hand protection** 

The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Use protective gloves made of: Polyvinyl

chloride (PVC).

Other Wear appropriate chemical resistant clothing if applicable.

If engineering controls do not maintain airborne concentrations to a level which is adequate to Respiratory protection

protect worker health, an approved respirator must be worn. Respirator selection, use and maintenance should be in accordance with the requirements of OSHA Respiratory Protection

Standard 29 CFR 1910.134 and/or Canadian Standard CSA Z94.4.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Observe any medical surveillance requirements. When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9. Physical and chemical properties

**Appearance** 

Physical state Liquid. **Form** Liquid.

**CLEAR YELLOW** Color Odor Not available. Odor threshold Not available. pН Not available. Not available. Melting point/freezing point Initial boiling point and boiling Not available.

range

Issue Date: 10-13-2022

Flash point 115.0 °F (46.1 °C) **Evaporation rate** Not available. Flammability (solid, gas) Not applicable.

Upper/lower flammability or explosive limits

Explosive limit - lower (%) Not available. Explosive limit - upper (%) Not available. Not available. Vapor pressure Not available. Vapor density 0.91 (Water=1) Relative density
